## **DETAILED ACTION**

### ***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: In regards to claims 1, 38, 43, and 56, the prior art of record fails to disclose "said opposed faces having a Brewster cut at the intersection of said OPO nonlinear generator and said axes so that the fundamental beam and the preselected wavelength beam incident on said generator within 10 degrees of the Brewster angle for said generator; both said preselected wavelength beam and said fundamental beam incidenting on said on said generator at said preselected polarization;". The remaining claims 2-37, 39-42, and 44-55 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1-56.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Quinton on 03/08/06.

In claim 38, at line 12, after "the", --- "preseleced" has been changed to "preselected".
